

Swim Up Ceremony

(Section Leader 1) As the morning light shimmered on the pond, the older busy beavers found Keeo and asked, "Please Keeo, tell us about what goes on in the bigger world?"

Keeo knew the time had come for these beavers to discover for themselves the answers to their questions. "If you beavers are ready to learn about the world beyond the pond, then follow me." They swam up the river.

Using his magical powers, Keeo gradually transformed the forest into a lush green jungle. As they swam, the beavers heard a playful howl.

"OOOOOooooo , come jump with us. Come run with us."

(Leader 1) They swam until they saw a clearing along the bank of the jungle river. Keeo began, "Busy beavers! Before we go on, tell me what you have learned from being apart of the colony?"

(Leader 2) "How to share."

(Leader 3) "How to have fun work hard and help family and friends."

(Leader 4) "And to promise to love God and to help take care of the world."

(Section Leader 2) "Well done!" said Keeo. "You are now ready to learn about life beyond the pond." Suddenly there was a bright flash of light and a magical light enveloped the beavers.

Staring at one another, the beavers realized that their flat tails and webbed feet had changed into bushy tails and strong legs. In a blink, they had changed from beavers into wolf cubs.
